This is the first apartment building I have ever been in where the management responds to problems immediately. They truly care about their tenants and are always looking for ways to improve their property and provide a positive living experience for their tenants. Support staff is excellent !!!

We couldn't be happier with our apartment. The recently renovated kitchen is amazing. The management is friendly and responsive to repair requests. The superintendent keeps the building in good shape and the sidewalk clear of snow. The neighborhood is great too. 10/10 - would rent again.

Overall this apartment was very pleasant and in a great location. There was an attention to detail within Le 6000 which I truly appreciated. The landlord is very understanding and flexible. Overall this complex was enjoyable and I am glad I rented here
